

Viewpoint 10: View looking south from Oxfordshire Way near to Oddington Grange.

Baseline: From this location, long-distance views towards the site are heavily screened by intervening mature vegetation.

Change: From this location, the landform remains relatively flat from this location towards the site and so there are unlikely to be views of the proposed development due to intervening mature vegetation. The size and scale of change will be very small and proportion of the view will be very limited from this distance.

Camera type	Nikon D3200 with 50mm lens (equivalent focal length)
Date	16th October 2020
Approx. grid ref	SP 54178 16738
Approx. elevation	+64m AOD
Distance to site	c. 2.42km
Approx. H FoV	60°

Sensitivity: Very high

Magnitude:

Significance:

This viewpoint is representative of long-distance views from users of the Oxfordshire Way recreational route between Islip and Weston-on-the-Green.

Viewpoint 11: View looking south-west from public bridlway on footbridge over New River Ray south of Charlton-on-Otmoor.

Sensitivity: High

This viewpoint is representative of long-distance views from users of the local PRow network south of Charlton-on-Otmoor.

Baseline: From this location, there are no views towards the site due to intervening mature 'layered' vegetation along field boundaries and within woodland blocks.

Change: Due to distance and intervening vegetation, from this location there are no anticipated views of the proposed development.
