Comments	<input type="text" value="1. Green Belt. Land is designated as Green Belt for good reasons;
2. This development represents over Industrialisation of Green Belt and Agricultural Land;
3. RSPB reserve and a natural landscape. This is a natural resource not only for Oxford and the immediate area, but also for a wider community in England.
4. There is a solar Farm near the sub-station and electricity generators at Yarnton. This is hidden within the road network. It makes more sense to enlarge an existing facility alongside an existing infrastructure rather than remove agricultural land on Green Belt.
5. New access road will be an eyesore and cut the Oxfordshire Way
6. Increased risk of flooding to Islip and Oxford"/>
