<b>Comments</b>	<input type="text" value="I am strongly against this solar farm being developed and even proposed for development as a solar farm. Once a solar farm is created, that piece of land no longer becomes proper green belt land.&lt;br/&gt;Great Britain is a small island, we need land for the production of food, not a solar farms which will be out of date in the near future because of the rapid growth in this technology. I strongly believe that this proposal becomes a mechanism to change the land use so homes can be built."/>
