Comments	<p>Hi All, I object to this application, as it is proposed on valuable farm land and in a conservation area of green belt. Food production in this country should be the priority for now and future planning, this country needs to be more self Sufficient in all manufacturing and food production, as the present war in Ukraine illustrates and the worry of a wider war. The area adjacent is a all to rare bird sanctuary, and for the protection of natural environment, which will be impacted by this proposal. This type of development is more suited to brown field sites, industrial areas ,and on on individual new housing developments. This area is of outstanding natural beauty, which in Oxfordshire is disappearing under concrete at a fast rate fuelled by greed and a growing commuter belt for London. I hope you take note of my comments,</p> <p>Yours sincerely Michael Waugh</p>
