Comments	<input type="text" value="This proposed development will have a seriously deleterious impact on this unique part of the Oxfordshire and Otmoor landscape. This area is precious for its native flora and fauna, as a refuge for migrant birds, and above all for its proximity to Oxford residents. Please don't allow such a development which will cause dangerous extra traffic on already over-used narrow roads, will disrupt wildlife, and will reduce the space available for growing much-needed food. The technology of solar panels is fast developing and there is no need for installations which displace and preclude other possibilities far more in keeping with this rural environment."/>
