

# Comment for planning application 22/01682/F

<b>Application Number</b>	<input type="text" value="22/01682/F"/>
<b>Location</b>	<input type="text" value="Land North Of Manor Farm Noke"/>
<b>Proposal</b>	<input type="text" value="Development of a ground mounted solar farm incorporating the installation of solar PV panels, associated infrastructure and access, as well as landscape planting and designated ecological enhancement areas."/>
<b>Case Officer</b>	<input type="text" value="James Kirkham"/>
<b>Organisation Name</b>	<input type="text" value="Elizabeth Kenworthy-Browne"/>
<b>Address</b>	<input type="text" value="Windflower House,Horton Hill,Horton Cum Studley,Oxford,OX33 1AY"/>
<b>Type of Comment</b>	<input type="text" value="Objection"/>
<b>Type</b>	<input type="text" value="neighbour"/>
<b>Comments</b>	<input type="text" value="The protecting of agricultural land comes before all else, or our nation faces potential starvation in the future. Our survival has to be uppermost in our minds and, for that, we need all the agricultural land we currently have if we are going to produce the food we need to survive and, by that, I mean mixed farming on all the land currently available . A solar farm is equally necessary for our survival but it must be built on a non- productive area of land. You cannot replace good farming land with a solar farm. The two have to work in tandem if we are to survive, not against each other. If you look hard enough you will find land which is quite unsuitable on which to grow food. Grabbing farming land is an easy task but, if you want your children and their children to survive, remember they need food."/> <input type="text" value="jms"/>
