Dear James Kirkham,

I writing to object in the strongest terms to the proposed planning application for the solar farm close to Otmoor reserve.

My reasons are:-

1. It is in the green belt round Oxford and should therefore be excluded from development. It will therefore impact on the large population of Oxford, reducing the value of the green area which is used recreationally by them.
 2. It is very close to the important Nature Reserve of Otmoor which is used extensively by many birds, and especially birds on migration which will be attracted by the reflection of the panels nearby thinking they are water and will crash into them.
 3. The proposals are for use of prime farming land which should be used for food production, not industrial use.
- I trust this application will be turned down for these reasons.

Kind regards,

Julie Bradley, 5 Ennerdale Close, Leamington Spa CV326NW

A contributor to the purchase of land for the Otmoor Reserve when it was first set up.
