I am against this development. As a local Woodstock resident of almost 30 years and a recent first time buyer in Woodstock, I can safely say that our town is facing an unprecedented and unwelcomed overdevelopment. Our historic town faces numerous housing plans from both Cherwell and WODC that threaten the community, infrastructure and local landscape. Many residents have been fighting this very vision for many years and here we are, fighting developments on multiple fronts...hundreds of houses, far more than our roads, schools, doctors and historic infrastructure can cope with. We have been made many promises by Blenheim/PYE homes for solutions to these issues. For example parking, it was only after the town expanded that we were surveyed on parking and at that point it was recognised that as a historic town, there is only so much you can do without building more parking.

There are nearby towns that have infrastructure to support additional homes. Woodstock is not one of them. The combined number of new houses proposed after Cherwell add their housing will increase Woodstock to beyond levels that it can sustain. The character of the surrounding area will change. It will loose it's charm from a quaint town into a overpopulated, overdeveloped and busy sprawl.

Not to mention the significant damage to surrounding landscape. The site proposed is of historic significance and should be treated with respect. The noise from the airport will make this an unappealing place to reside. I am living much further from the airfield and it only takes the wind on the right day for the noise to travel. I can only image how unattractive it will be to reside that close to the airfield. This is not what Woodstock wants. This is not what Woodstock deserves.

No more development please.
