Comments	<p>This may be CDC but this is going to enlarge Woodstock which is WODC. We are already experiencing huge over development. This piece of land was thrown out previously as it would destroy the character of Woodstock - nothing has changed! By building on this area it will completely change the approach to Woodstock, will destroy the character and will add to the massive over development in the local area.</p> <p>The infrastructure cannot take more cars. The medical facilities are at capacity or over capacity anyway with no plan to expand. The schools are already struggling.</p> <p>And furthermore what is happening to our green spaces. Need not greed. This is greed. We need to protect our green space and farm land more than ever. With everything going on in the world we need to back British farming. Keep the land for farming. Climate change and the wildlife need this as much as we do not want houses here. We do not need the housing - we absolutely do NOT need this. There is so much housing within a 3 mile radius in planning just awaiting building let's not add to this already massive concrete jungle.</p>
