Comments	<p>I would like to object to this application for the following reasons:</p> <ul style="list-style-type: none">-The development is inappropriate because it would alter the character of this semi-rural area and create an unacceptable enlargement of Woodstock, especially given the recent development which has already taken place there and the developments planned along the A44 between Oxford and Begbroke.- it would create unacceptable levels of traffic along the A4095 through Bladon and at the junction with the A4260, both of which are increasingly crowded at peak rush hour times.- there is insufficient infrastructure to support this development. There is no possibility of adequate healthcare being provided for any new residents within Woodstock health centre: the local schools are all full .- The house prices for all the new houses will be far beyond the salaries of teachers , nurses and other essential workers .-There is concern about sewage capacity particularly given the recent wet weather and overflows into all the local rivers.
