Comments	<input type="text" value="This development will lead to intrusion into our privacy as the rear of the garden is open to the field. It will also cause congestion to an already congested junction and road. With cars parked on the main road it is often dangerous to use the turn in to this area. It will also damage our view and very likely access to light, particularly in the mornings. Further this area is on the highest ground in an area prone to flooding. Covering this area with road and houses will create a greater risk of surface water washing down into our property as we lie between it and the brook at the front of our house. I was given to understand that this village was under a no build order, as such this new development seems in opposition to that order. I draw your attention to the numerous previous attempts to gain planning for this area from the same or related sources, all of which have been denied on similar grounds to those noted above."/>
