Details of customer enquiry:

To Whom it May Concern, I recently received the attached letter about the building works (14/01932/OUT) that will be taking place behind where I live (Parsons Piece) and about commenting on the application. I don't believe this is still an application as I believe the building works have been approved and are going ahead, therefore is there any point on commenting? Also, I cannot find anywhere on the website where I am able to comment. All I would like to say is that I am looking to move partly because of the building works that are going to take place. I wasn't made aware by my housing association when I moved in that any building works would be taking place and I am deeply saddened that it will be taking place. It will affect my health and therefore I am trying to move. I am also in need of getting closer to my family in Hook Norton for more support.
