Dear Linda,

I would like to add a minor addendum to my last response dated 23<sup>rd</sup> February 2023.

I note that street scene illustrations demonstrate rear parking courts are still easily accessible and vulnerable to crime, with gates of insufficient height/construction to prevent climbing and access by unauthorised persons. The proposed gates might as well not be there, as any person intent on committing a crime or gaining access to these parking courts could do so with ease. Access issues aside, I maintain my request that these parking courts must be removed from the scheme, for all reasons previously stated that I do not wish to repeat here.
