

We object to the amendments for the following reasons:

The development gives very little protection to the ecological and historical significance of the SaltWay. There should be a wide landscape buffer zone along the length of the boundary with the Saltway. The buffer has not been properly addressed. The Bodicote Circular Walk will have to cross the new road (extension of Blackwell Way) and the detailing of the crossing point must be designed to be safe for pedestrians and in keeping with the rural character of the Circular Walk.

Regards

Christine Coles

Clerk to Bodicote Parish Council
