Comments	<input type="text" value="The traffic will be unmanageable. Already the access routes into the estate are too narrow. Most importantly the lorries that take supplies and materials to the ongoing phase 3 development are still producing high levels of brick dust, I believe there is no plan to change the access route for materials. Where are the facilities for all of the extra homes, already the current phases have more than 400 homes, with another 250 homes that would require a school, a dentist and a shop."/>
