

CENTAUR CL 10

Cycle Shelters

Cycle Rack Shown is a Streetspace Centaur two CL 10s Semi-Enclosed Cycle Shelter - HD Galvanised Finish (Shelter/ Stands) - Rail Fix (Toast Rack) Stands - 20 Cycles

CENTAUR CL can be specified as a secure cycle shelter compound with the addition of sliding steel mesh gate panels to the front elevation. ZedPanel colour coated steel mesh cladding panels, durable steel and nylon roller tracks and a choice of access control systems.

Semi-enclosed cycle shelters that provide reliable, cost-effective weather protection for a single row of cycles under an asymmetric quadrant roof. The standard CENTAUR CL module covers 10 cycles with the sheffield-type stands and modules can be added in-line or as a compound as required.

CENTAUR CL cycle shelters are supplied with height-adjustable steel base plates that can be fixed to foundation pads either below or flush with the finished surface, depending on site and finish requirements. Surface fixed

sheffield toast rack cycle stands are supplied as standard with root-fix specification available.

The clear view solid polycarbonate cladding is manufactured with UV protection on both sides providing excellent weathering properties. High impact resistance ensures the cladding is not damaged through daily use or vandalism.

CENTAUR CL cycle shelters are supplied with durable hot dip galvanised coating as standard with colour powder coat options that can include coordinated cycle stands. Sliding gate panels can be fitted to individual units for security. Cycle compounds can be created with end gates and central 'flying roof' sections.

CENTAUR CL 10 Unit Dimensions

(A)	Top Width:	4160mm
(B)	Base Width::	4270mm
(C)	Top Depth::	2037mm
(D)	Base Depth:	2092mm
(E)	Height	2008mm

Storage: 10no. Cycles
Sliding door option available.
