Comments	<input type="text" value="The wildlife will be effected.
There are Great Crested Newts in the pond, in fact we had three in our passage way at the side of my house this summer. They are a protected species.
Also there are at least two different types of Deer that come to drink at the pond both in the early morning and evening, these Deer sometime stay for most of the day in the thickets of the field through the day.
We need to protect our wildlife not continue to destroy it.
Why do we need all of this new house building around Ambrosden I fail to understand."/>
