I do not see the reason for this development there are so many sites that are being built on around Ambrosden.
We have a pond the has GREY CRESTED NEWTS in ,in fact I had three in the passage of my house this summer.
There are two types of DEER that come to drink at the pond either early morning or late evening, sometimes they will stay in the thickest near the pond for most of the day. If this planning does go ahead what will happen to these DEER to find water as well being able to come to the pond ?
I am definitely against this development."/>
