Subject: RE: Planning notification for application reference: 22/02866/OUT

Dear Sir/Madam,

Ref: 22/02866/OUT Land East of Ploughley Road, Ambrosden

Thank you for consulting us on the above application. An archaeological evaluation has been carried out on this site, though the report on this work has not yet been submitted to us for approval. The evaluation recorded archaeological remains and there will need to be a further stage of archaeological mitigation if planning permission is granted.

We would, therefore, recommend that, should planning permission be granted, the applicant should be responsible for ensuring the implementation of archaeological investigation to be maintained during the period of construction. This can be ensured through the attachment of a suitable negative condition along the lines of:

- 1 Prior to any demolition and the commencement of the development a professional archaeological organisation acceptable to the Local Planning Authority shall prepare an Archaeological Written Scheme of Investigation, relating to the application site area, which shall be submitted to and approved in writing by the Local Planning Authority.

Reason - To safeguard the recording of archaeological matters within the site in accordance with the NPPF (2021).

2. Following the approval of the Written Scheme of Investigation referred to in condition 1, and prior to any demolition on the site and the commencement of the development (other than in accordance with the agreed Written Scheme of Investigation), a programme of archaeological mitigation shall be carried out by the commissioned archaeological organisation in accordance with the approved Written Scheme of Investigation. The programme of work shall include all processing, research and analysis necessary to produce an accessible and useable archive and a full report for publication which shall be submitted to the Local Planning Authority within two years of the completion of the archaeological fieldwork.

Reason – To safeguard the identification, recording, analysis and archiving of heritage assets before they are lost and to advance understanding of the heritage assets in their wider context through publication and dissemination of the evidence in accordance with the NPPF (2021).

Kind regards,

Victoria
