Comments	<input type="text" value="This development is planned for an area beyond the building line of the village and as with all previous applications (most recently 22/01772/PIP - refused) this should therefore be refused. To allow an application beyond the building line of the village will inevitably open the flood gates to all other previous applications as well as new development of farm land and green land. This will unalterably change the nature and character of the village. Further, access to this site would be via a narrow lane with limited vision, directly adjacent to the playground."/>
