Comments	<p>I support this application because I think that it is good for the village. We know that with the need to build more houses nationally that we will have to accept some building at some time so it would be good to have a build with a variety of house sizes like this one. Two bedroom bungalows that could be a good first time buy or a downsizing option for a local retiree that opens up another house in the village for a local looking for a larger family home, three bedroom houses that a local with children at the school would find attractive. The location for this development does not impact our lovely local amenities like mill lane, the quarry and the river and canal like a development on the field on Mill lane would. Being at the end of the village it should not greatly impact the traffic through the village, and follows the existing flow of houses. It may also bring more business to two our local pubs as we do not need to loose them and possible support to the community shop should it take off.</p>
