Comments	<input type="text" value="I object to this application for the following reasons -
Access on the bend in the road is very dangerous, especially when turning into the development when coming from the village.
The development is not integrated within the village.
The development extends the village boundary.
The layout is designed to allow further development to the opposite side of the new road further exasperating the points made above.
The properties shown will not help village youngsters to get local housing.
The village sewage system is already overloaded, any development will only compound existing problems.
Regards,
Gordon Pusey."/>
