Comments	<input type="text" value="I object to the proposed planning application on the grounds that the development would cause damage to the character and appearance of this area and the rural setting of Kirtlington. The open and rural nature of the field and landscape provides an important buffer to prevent the suburbanisation of this edge of the village. During the winter months the site is more visible and would significantly harm the village's rural setting. This site provides a positive contribution to the softening of the village edge."/>
