Comments	<input type="text" value="I have questions over the visual impact this proposed development would have on our conservation area. But the the main objection is to road safety. The proposed entrance is on an already dangerous corner where there already have been many near and actual car accidents. As you will know, traffic is off a major concern in the village and is already a serious problem with volume , speed and safety for cars, cyclists, horses etc. I cannot see a footpath on the plan. This means that you would have to walk on the verge to get into the village for the school etc. This would be totally unacceptable and hugely dangerous. I feel the main concern for the council is to reduce car traffic not increase it as proposed here. Our infrastructure just cannot manage an increase. The attached photo was taken at 1.45. Not rush hour!"/>
