Linda

Thank you for sending on the amended faunal enhancement plan and the clarification from the applicants. As a result I am content for there to be a compliance condition for this plan (I think that was the query?).

Kind regards

Charlotte

Hi both,

Please find attached the updated Faunal Enhancement Plan which has taken into consideration comments received. The locations for the swift bricks and bat boxes are the actual proposed locations and therefore 'indicative' has been removed from the plans.

Please note, as per our group guidance at appendix 1, one dot indicates three swift bricks on the same elevation so 39 dwellings have three swift bricks located on one elevation (which equals 117 in total). This is also set out in the key on the swift brick location plan.

We would also welcome comments on the HMMP we submitted on 30/09.

Many thanks,
Estelle.
