Comments	<input type="text" value="I am writing to object to the Padbury Brook Solar farm.

The need for Solar power is not to be denied, but there are other locations, closer to urban centres, on former air-fields and buildings, which are better suited to providing Solar panels. Good agricultural land is better suited to growing crops, and if currently graded at 3b, this area should be restored for cultivation, and returned to its full productivity instead."/>
