

Comment for planning application 22/03873/F

Application Number	<input type="text" value="22/03873/F"/>
Location	<input type="text" value="Land North And Adjacent To Mill Lane Stratton Audley"/>
Proposal	<input type="text" value="Installation and operation of a renewable energy generating station comprising ground-mounted photovoltaic solar arrays and battery-based electricity storage containers together with a switchgear container, inverter/transformer units, Site access, internal access tracks, security measures, access gates, other ancillary infrastructure and landscaping and biodiversity enhancements."/>
Case Officer	<input type="text" value="Rebekah Morgan"/>
Organisation Name	<input type="text" value=""/>
Name	<input type="text" value="Jim Harris"/>
Address	<input type="text" value="11 Cavendish Place,Stratton Audley,Bicester,OX27 9BN"/>
Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="This proposed planning application will not benefit many residents of Stratton Audley or surrounding villages/towns. I feel that this disruption caused by allowing this application to be successful will outweigh any benefits. I agree with the concept of renewable energy for the many reasons already put forward, however this site is not large enough to make a difference. If the council want numerous solar panels to be placed on the land, then surely a better idea is to have a much larger development that will generate enough electricity to power the numerous homes that this proposal is designed to address. The reality is I think, that a much larger site, with 10x or 100x the number of panels suggested for this site would be a better idea' It could then be sited on brown belt land, away from local residents and not disrupting the lives of villagers who will be affected by this, should this development be allowed to be built. There are numerous wind turbines situated off the coast of GB and I feel that a similar site should be found for solar panels. A local farm, outside a village that disrupts the lives of residents and pedestrians rights of way is not a suitable site."/>
