<b>Comments</b>	<input type="text" value="Stratton Audley is an area of natural beauty, which is now threatened by this unnecessary scheme to place a solar farm on agricultural land recently purchased by someone outside of the area for personal financial gain and without any concern for the local community. Although I recognise the need to find alternative supplies of energy, these should be positioned on brown field sites rather than quality agricultural land. Stratton Audley and the surrounding villages have been plagued by a significant increase in construction traffic due to EWR and HS2 with the consequential damage to local roads and this proposed scheme will further exacerbate the challenges of local travel. Additionally, the complete disregard for Pool Farm and the impact that this scheme will have on Chris and Cathy Wigmore's business and family, is appalling. My family moved to Stratton Audley in 1965 and we have loved living in this rural community, which now seems threatened more than ever by people that have no connection to the area, looking to make money at the cost of the people that actually live here."/>
