Comments	<input type="text" value="I object to this proposed solar farm on two counts. The first being that we have had endless traffic damage to the road for the past 3 years, due to the endless and large amount of HS2 and EWR lorries that go thundering up and down the very small road and we all feel that this is unacceptable. On the second point - I cannot see why this solar park is being built on a green field site and I believe that this scheme is not viable."/>
