<b>Comments</b>	<input type="text" value="I object to the planning application for a Solar Park at Mill Lane, Stratton Audley because the land in question is good quality crop yielding land. Members of my family have in the past successfully farmed this particular piece of land and the current applicant was recently granted planning permission by Cherwell for a grain barn in which the application submitted was for a higher than average yield of grain. Solar Parks should be developed on brown field sites or on the roofs of commercial buildings in Bicester. The effect on environmental diversity will be devastating. Stratton Audley village will not benefit from the Park except for the commuted sum of 200,000 being offered by the developer. If this site is granted permission then it marks a precedent for future solar parks on agricultural land in Stratton Audley. As a close neighbour of the proposed Solar Park we have had to suffer the effect of construction traffic for East West Railway and HS2. (My Dog was run over and killed by one of the trucks last year). I strongly oppose this application and believe it will have an adverse effect on the wedding venue Business at Pool Farm."/>
