Comments	<input type="text" value="The lack of consideration of residents. The noise that solars produce is an ongoing humming and having this so close to residents is completely inconsiderate. There is evidence The long term noise such as this can cause, mental health issues as well as headaches etc. I support solar farms but when they are being built so close to residents I feel strongly that this needs to move. There are so many green spaces within Oxfordshire and the Cherwell council area that are not close to residents that can be used."/>
