I support this application because

We must secure our own domestic energy supply, relying less on foreign imports

I also support Padbury Brook Solar Farm because

The site will continue to be used for food production, with 95% of the site still available for sheep grazing

Subject

Padbury Brook Application (22/03873/F)

Email

To whom it may concern,

I am writing to express my support for the Padbury Brook Solar Farm (Planning Application Reference 22/03873/F).

I support this application because we need to secure our domestic energy supply, and move away from expensive imported fossil fuels.

I also support this application because the site is not considered 'good' quality farmland according to the soil survey, so will not take away 'good' quality cropland, and will continue to produce food for the UK via sheep grazing on 95%+ of the site.

As such, I hope Cherwell District Council is able to support this planning application and recommend it for approval.

Yours faithfully,
Matthew Cheney
