Subject: Padbury Brook Application (22/03873/F)

Message:

To whom it may concern,

I am writing to you today to register my support for the Padbury Brook Solar Farm (reference 22/03873/F).

I support the development of local clean energy sources because Padbury Brook solar farm would save over 1.3 million tonnes of CO2 per year.

I support the plans for Padbury Brook Solar Farm because it will generate clean energy for 16,680 UK homes, saving over 1.3 million tonnes of CO2 per year.

I believe Cherwell District Council should approve this application because Cherwell Council must support developments that provide clean energy and help to tackle climate change locally.

Cherwell District Council declared a climate emergency in 2020, and the approval of applications like are crucial if

this is to mean anything. The application benefits strongly from policies PSD1, ESD1, ESD5 and ESD10 of the adopted Local Development Plan which seeks to promote renewable energy, the protection and enhancement of biodiversity, and mitigate against climate change. As such, I hope officers and members of the planning committee are able to support this planning application, and it is recommended for approval.

Yours faithfully,
Brian Eastgate
