Comments	<input type="text" value="I strongly object to this proposed development. It is out all proportion to the existing village and would appear to double its size. This gradual urbanisation of the village would change its semi rural character.
This proposed development is not a sustainable development as the village has no shop or public transport nor employment areas. This therefore means that there would be more traffic and car journeys undertaken putting more pressure on the village roads.
I am also concerned about the loss of food producing farmland and the environmental impact of the services required for such a large development, water , drainage ,sewers etc. All this puts pressure on the environment, drives wildlife away from what should be left as countryside."/>
