Comments	<input type="text" value="I strongly object to another 147 homes being built on the edge of our village. We are already seeing increased traffic through the village as the Great Wolf build starts. The infrastructure of the village is not enough to support more houses as this would bring more traffic congestion and lower highway safety and more pollution. There is a risk of increased flooding and drainage problems, there is a risk of an impact to nature conservation and conservation areas. Previous planning decisions and government policy and guidance precludes this development. It is not sustainable to continue to put developments on the outskirts of this village."/>
