Comments	<input type="text" value="150 new homes being built would increase the number of houses in our village by a third. This is a huge increasing which would result in a huge strain on the local roads and schools and hugely change the nature of our village. We have already had to accept the building of a massive water park on the outskirts of Chesterton with all the additional traffic congestion, and the overall negative impact. The plan to build 147 homes on countryside land and the resulting environmental pollution, drainage, flood risk and impact on the landscape and natural habitat is just totally unacceptable. There are already allocated development sites identified in the Local Development plan and the submitted plans go against Government policy and guidance and previous planning decisions."/>
