<b>Comments</b>	<input type="text" value="Our small village will not be able to cope with more sewage and waste water going being pushed through our limited old pipes. We already have Thames water in the village regularly digging up the road to repair pipes they r simply not equipped for these proper extra houses. We have no local amenities and everyone has to drive to get to shops and the extra traffic will mean the roads will get worse. The local primary school is not big enough to cater for more pupils and parking is already bad at drop off and pick up with no additional parking out in place for the recently expanded school Intake..so where will the new intake go.out of the village to another school..madness."/>
