Developing the area would present as a starkly industrial mass of metal in the rolling, open countryside and have a hugely detrimental impact on our landscape and local heritage. It would increase traffic with accompanying air pollution and place further pressure on the M40 roundabout which is already insufficient for the volume. It would increase noise from alarms and machinery for nearby homes and remove the natural habitat for wildlife and birds and increase flooding risks by removing permeable surfaces.

" warehouses="" will="" yet=""/> Applications to build on this area should be rejected. Banbury does not need it. The surrounding area doesn't need it. The A422 is already trying to cope with too much traffic, this will only make it worse."/>
