Comments	<input type="text" value="It's ridiculous the amount of traffic that is stacking up at peak hours at the M40, junction 11 roundabout from Daventry.

This will only increase traffic and only add to the concrete corridor that is fast surrounding Banbury and sadly ruining the surrounding landscape of Banbury on both sides of the motorway. It's also starting to ruin the surrounding villages and countryside, moving ever closer to the conservation area with great big lorries filling our roads.

There are enough industrial empty units the other side of Banbury without adding further units. There already two new huge units that are sat there empty. I would encourage the council to develop existing empty warehouse units and leave one side of Banbury as countryside with less pollution, and less traffic congestion."/>
