Comments	<input type="text" value="I strongly object again to another planning application being submitted on this area of countryside.
Traffic! Banbury is already struggling to cope with increased traffic from the existing warehouses that have been built along Chalker Way. Our roads at times are just full of huge articulated lorries. As someone who walks from Banbury to Middleton Cheney I have noticed this increase of extra traffic and the pollution and noise it creates. More warehouses are obviously going to create even more traffic, more noise and more pollution.
Wildlife! We have some beautiful animals and insects living in our countryside around Banbury. Deer, hares, badgers, foxes, bees, dragonflies, owls to name a few. Where does all this wildlife go when their habitat is destroyed? When I used to walk through Nethercote before the motorway was built I used to hear the cuckoo every year. Once the motorway was started I never heard one there again! We need to have a balance of countryside and it's wildlife around us.
So much of our green space has been turned into development over the years in Banbury that it is getting harder to find an escape into the peaceful countryside. Adding more huge warehouses in our countryside, especially when we seem to already have empty warehouses waiting to be filled, seems unbelievable!"/>
