Hi Suzanne,

I have reviewed the Ground Investigation Report referenced TE1585-TE-00-RP-GE-004-V04 Version 4, 21 January 2022 in respect of condition 15, and the Remediation Strategy and Verification Plan referenced Te1585-Te-00-Xx-Rp-Ge-005-V01 Version 1.0 26, August 2022 in respect of condition 16.

Based on the findings of the reports there would be no objections to the discharge of condition 15 (contamination) and the discharge of condition 16 (contamination remediation).

Regards
