Type of Comment	<input type="text" value="Objection"/>
Type	<input type="text" value="neighbour"/>
Comments	<input type="text" value="I am writing to express my objection to the proposed development of a third industrial building on the site located in the countryside. As a concerned citizen, I believe that this application should be rejected for several reasons.

Firstly, the site in question is already home to two enormous industrial buildings, which have already had a significant impact on the surrounding area. The additional building would only exacerbate the negative effects of these developments, including increased traffic and noise pollution.

Furthermore, the site itself is currently in a state of disrepair and is an eyesore for those who live and work in the area. Adding another industrial building to the site would only contribute to the current messiness and unkempt appearance, which is in stark contrast to the natural beauty of the countryside.

In addition to these concerns, the proposed development would also have a negative impact on the local environment, including the potential destruction of wildlife habitats and the loss of valuable green space."/>
