Comments	<input type="text" value="This is yet another massive warehouse being built with no solar panels. This is wholly irresponsible. There are many proposed sites for solar farms on greenfield land, in Cherwell and across the country, yet roofs on new houses and vast new warehouses are left unused. Solar panels should be mandatory on such buildings. This is a lose/lose situation. I note that there are only two EV charging points within a 78 space car park. Why is this. It becomes unattractive to have an EV if you can't charge it!"/>
