RECOMMENDATION

That Planning Condition 8 (installed SuDS and site wide drainage scheme) of 21/04171/F be discharged based upon the following:

Condition 8

The condition requires the submission of a record of the installed SuDS and site wide drainage scheme for deposit with the Lead Local Flood Authority Asset Register. The LLFA has been consulted on the submitted details and have advised that they do not have any objection. It is considered that the documents/photographs and plans submitted record the installed scheme and this satisfies the wording of the condition, and the condition can be discharged.
