Comments	<input type="text" value="Dear sirs, My cottage would revert from a view of open fields to one of a mini Blackpool Tower with surrounding infrastructure. My cottage has enjoyed open views since C1650s and to put something such as this, application in front of the property is ludicrous. Also the damage to the overall view of the entrance to the village will not only detract on the visual aspect but also to the value of the properties. There are many sites in the village that this mast could be erected. Although I notice that the proposed site is virtually next to a major BT underground junction. Could this be the reason for the mast to be built on the proposed site?"/>
