# Comment for planning application 23/00750/TEL56

**Application Number** 23/00750/TEL56

**Location** Street Record Station Road Kirtlington

**Proposal** Proposed telecommunications installation: Proposed 15.0m Phase 9 slimline Monopole and associated ancillary works

**Case Officer**

**Organisation Name** Marylyn Robinson

**Address** Mallory,Heyford Road,Kirtlington,Kidlington,OX5 3HS

**Type of Comment** Objection

**Type** neighbour

**Comments** As previously I wish to object to this application for the same reasons the appeal was dismissed by the Government Inspector - due to the adverse impact this would have on the rural street scene of our village, the proximity to residential properties and impact on residents and passers by. I note that the only difference in this new application (by the same company although they appear to have changed their name in November 2022) is that this pole will be "slimline", and painted green. The height proposed is still the same as in the previously refused application and much much higher than any other street furniture despite what has been stated in the application. For example the proposed pole is 15 metres high and the telegraph pole referred to is 7 metres - not a similar height as referred to in the application.
The proposed location is inappropriate for a mast of this size due to its prominent position located on the verge at the junction of the entry and exit to the village, and within the designated the conservation area. It will obscure the ancient dry stone wall and I also think will be a possible distraction to drivers. There are well documented medical concerns about the potential effects of radiation which surely means consideration must be given to relocate the mast to a location more remote from homes and recreation areas.
