Comments	<input type="text" value="I'm objecting to this application for the same reasons as I objected to a very similar application which has previously been rejected. The site is extremely visible in the centre of the village. Its also in a conservation area. It's in the wrong place - there are far more suitable sites. What's the point in having a process when the people trying to build this mast are just trying to circumvent that process and ignore the fact that they've been turned down previously and lost at appeal by just submitting the same application in a different name?! Its disrespectful to the council and to the villagers in Kirtlington"/>
