| Comments | <input type="text" value="As before I strongly object to a 5 G mast be put up in Kirtlington. The mast would be a depressing eyesore on the main road in our village and one that most of us would have to look at everyday. I am concerned about the effects of it on our country side and wild life. I am worried about the effects on people's health over a period of time. In addition I note that the reasons the previous application was refused have not changed. The location is within the conservation area and would seriously affect the outlook of several surrounding historic properties."/> |
