Comments	<p>I would like my previous objection to stand once again on this new application. KIRTLINGTON is a conservation area and this site is prominent at two entrances into that conservation area.</p> <p>The site is adjacent to an old barn conversion and opposite delightful old cottages that will be blighted by this construction.</p> <p>If the site were moved further up the road towards the golf club it would be at a higher elevation and would not be in view of the village.</p> <p>For those in the conservation area we have to have permission for the smallest things such as tree pruning which demonstrates the councils ambition to maintain the character of the village, this huge tower will make a mockery of that intention.</p> <p>The country's planning laws on listed buildings mean we cannot replace draughty doors and windows so there is no ambition for energy conservation or modernity. Approval of this mast is counter to that approach.</p>
