Comments	<p>Apparently I need to object a second time, to this mast being erected in the Village. Regardless of the minimal changes proposed, it will still stand out like a sore thumb, and should certainly not be at any cost. We have a beautiful village with many small areas of stunning nature within it. To put a mast on that corner will be an abomination to that beautiful little wild corner, to the local residents (it'll stand out even from my window, for certain), to the village as a whole, and to travellers through it. Within the village is NOT the place for this company (or the previous!) to bring their 'progress'. Their time would be better spent creating a more acceptable technology that does not impact so greatly on residents.</p>
